Part 1: a roundup of what's new with regard to professional and external regulation - If you ever wondered how your Practising Certificate fees are spent, this accredited CPE programme should shed some light!

Part 2: Data Protection and Cyber Security 2021

With just over 700 notaries, the notarial profession is small, but diverse, particularly when it comes to Data Protection and Security. In its Code of Practice, the Faculty Office states "...You have a transparent data protection policy appropriate to the nature and size of your notarial practice". We take a close look as we review the various options open to notaries to meet their SECURITY and POLICY obligations.
